The BA/BS degree is the pre-professional component of the Department of Architecture's NAAB accredited Master of Architecture degree. There are separate admission requirements for the undergraduate major at the conclusion of the first year at CAP, and the graduate M.Arch program at Ball State.</p> <p>This undergraduate degree differentiates from the undergraduate professional Bachelor of Architecture (B.Arch) degree after the third undergraduate year. During the fourth year of this pre-professional degree choice, students take more option courses to explore interests that may inform their professional graduate studies.</p> <p>Students with this degree have also chosen to go into careers in allied disciplines making the pursuit of the professional degree (M.Arch) unnecessary for their career and education plans.</p>
