Hybrid Car Resolution Adopted August 26, 2002

Resolved:

- That Ball State University move with greatest dispatch to include three high-mileage hybrid cars in its fleet of automobiles.

Costs:

- These vehicles are competitively priced.

Benefits:

- The university will lessen the environmental impact of its fleet.
- The university personnel that make use of the fleet will have the chance to experience firsthand the performance of such vehicles.
- The university will sow operational cost by virtue of the higher mileage of the vehicles.
