RESEARCH EXPERIENCE

2020-Present

Principal Investigator. Ball State University

Project: “Military origin, law enforcement use: Determining the contexts and predictors of police use of 1033 Program acquisitions.” Funded by the Ball State University ASPIRE Junior Faculty Research Program.

Responsibilities: Lead investigator of a national survey project examining law enforcement agencies’ use of the 1033 Program – a military surplus transfer program – and possible predictors; management of two graduate student research assistants; preparation of summary report of findings and manuscripts for appropriate academic journals.

Continued funding requested through the NSF Law & Science Program to pursue project through 2022-2025.

Project: “Assessing relationships with fatal police encounters.”

Responsibilities: Lead investigator of several completed and ongoing projects exploring relationships between several cultural and accountability measures and police fatal force.

Project: “National outcomes of body-worn camera adoption.”

Responsibilities: Lead investigator of several ongoing projects exploring relationships between body-worn camera adoption across law enforcement agencies in the United States and whether implementation is related to theoretically expected outcomes.

Project: “Exploring militarization and police accountability.”

Responsibilities: Lead investigator of several completed and ongoing projects exploring relationships between multiple dimensions of police militarization and potential predictors and outcomes.

2018-Present

Lab Member. Complex Social Interactions Lab, Washington State University

Project: “Procedural Justice as Observed through Body Camera Footage.”

Responsibilities: Continued collaboration with Lab members at WSU and other participating institutions to analyze police/citizen interactions and police use of procedural justice, using body-worn camera footage.
