## Donor Agreement

I hereby donate the materials below to Ball State University (the "University"), for its Archives and Special Collections in University Libraries, as an unrestricted gift, and transfer to the University legal title, copyright, and literary and artistic property rights to the contents in as far as I hold them, except for any limiting conditions specifically stated below. I understand that, unless specifically limited below, this gift grants the University, through its Archives and Special Collections, the right to transfer the materials to any format or medium now known or later developed for preservation and access purposes.

I understand that, unless limited below, the rights transferred to the University by this donation include:

- The right to dispose of any of the gifted materials not retained by Archives and Special Collections, as the University may see fit, and;
- The right to digitize materials from this donation and publish the digital surrogates online for global access in the University Libraries' digital research repository.

I warrant that, to the best of my knowledge, I own the physical property in the donated material(s), free and clear of any liens, or that I have the full right, power, and authority on behalf of an organization or individual that I represent to transfer the materials to the University. I understand that appraisals for tax reporting purposes are the responsibility of the donor, and any information deemed necessary for such purposes should be acquired prior to the donation of these items to the University.

Limitations:  I direct that any materials not retained by Archives and Special Collections be returned to me or my designee, and I do not authorize the University to dispose of the donated materials in any other way without my written consent.

I grant the University, through its Archives and Special Collections, the right to distribute the donated materials in a digital format directly to researchers, but I do not permit the publishing of these collection materials in the University Libraries' online research repository.
