

BALL STATE UNIVERSITY RADIOGRAPHY PROGRAM

MISSION, GOALS, STUDENT LEARNING OUTCOMES AND ACCREDITATION STATUS

Mission

The mission of the Ball State University Radiography Program is to prepare students with educational experiences and environments to become successful entry-level radiographers who demonstrate the highest level of professionalism and academic, technical and clinical competence in serving their patients, customers, community and the profession.

Goals

- Students will demonstrate clinical competence.
- Students will demonstrate effective communication skills.
- Students will utilize critical thinking.

Student learning outcomes

- Students will apply appropriate positioning skills.
- Students will practice/apply appropriate radiation protection.
- Students will demonstrate effective written communication skills.
- Students will demonstrate effective verbal communication skills.
- Students will demonstrate digital technical factor and exposure knowledge.
- Students will vary procedure protocols/positioning in non-routine situations.

Accreditation status

The Ball State University Radiography Program is accredited by the
Joint Review Committee on Education in Radiologic Technology (JRCERT)
20 North Wacker Drive, Suite 2850
Chicago IL 60606-3182
312-704-5300
Email: mail@jrcert.org
Website: <https://www.jrcert.org>

The program's current award is a full 8-year accreditation. General program accreditation information and the current accreditation award letter can be found [here](#).
