1. Begin at Lucina Hall. Lucina Hall is a first-stop spot for many new students seeking undergraduate degrees. Originally constructed as a women's dormitory, it was converted to office space in the 1970s.

2. Take a photo with Beneficence. We like to call her “Banny” for short. Her right hand reaches out welcoming you to Ball State. Her left hand holds a treasure chest signifying the knowledge and treasure you can obtain at Ball State.

3. Stroll through the Quad. This historic part of our campus is the perfect place to relax between classes. Take a lap around this beautiful area and count the number of squares you see.

4. Cross the Scramble Light. The intersection of McKinley Avenue and Riverside Avenue is different than most. When you hear chirping, you can cross any direction (even diagonally!) for 30 seconds.

5. Walk through Bracken Library. As the largest library in Delaware County, Bracken has the same square footage of seven football fields! Bracken houses our Technology Center and Store, free printing services, a cafe, and, of course, lots of books.

6. Say hello to Frog Baby. Students used to visit the David Owsley Museum of Art and rub her nose for good luck on exams, but now she plays in a fountain with frogs just outside of Bracken Library. Students routinely dress her up for holidays and events.

7. Check out the Rec Center. The Jo Ann Gora Student Recreation and Wellness Center has a three-level fitness area, indoor turf field, five-court gymnasium, and more. Be sure to check out our three-story indoor climbing wall!

8. Eat at The Atrium. Check-in-a Papa John’s Pizza, Bon’s Head Deli, Vietnamese Mexican, McKinley Grill, the possibilities seem endless. Grab your favorite grub, and if the weather is nice, snap a seat outside.
